Victoria, B.C., Jan. 13.—Further details of the devastation and loss of life caused on the island of Ambrym, in the New Hebrides, by volcanic eruptions on Dec. 4 and following days, when cable reports told of the death of about 500 people, the transformation of the coast, and the throwing up of a new island from the neighbouring sea, were brought here yesterday by the Canadian-Australian liner Makura.

GIVEN THREE YEARS ON FORMER CHARGE

Roy Dustin Sentenced This Morning.

Is He Insane or Dope Victim?

Three years in Kingston Penitentiary was the sentence imposed this morning by Judge Monk on Roy Dustin, who, on December 10, pleaded guilty to a charge of breaking into the premises of and robbing the Robert Duncan Co. The offence was committed a week before. C. V. Lange appeared for the prisoner at the time and urged strongly that the young man be given another chance, pointing out that Dustin's criminal record always was of the Scotty Judge Monk heeded the character evidence and gave Dustin another chance. Monday night when he was caught at the same game and so Judge Monk sent for him to appear for sentence on the former count.

The sentence was much of a surprise to the crown attorney, as well as to Dustin's lawyer. He was the first prisoner arraigned. After referring to the case of a month ago, Judge Monk said: "Dustin, you have disappointed me and your friends. I am going to sentence you to—"

"Will you not withhold sentence until after the charge on which he has not been tried has been disposed of?" asked Mr. Lange, appearing for the prisoner again.

Dustin had elected to be tried by a judge without a jury on the charge still hanging over his head of stealing \$410. "No, I will not," replied Judge Monk. "The sentence is three years in Kingston Penitentiary."

Dustin staggered from the dock and hung his head in shame. Mr. Lange announced that Dustin would be examined by medical advisers to decide as to his sanity. It was then alleged that Dustin, after being released, had been found in a room in the grounds the conviction might be upset. Mr. Lange, however, the Scotty Judge Monk, who declared that the Minister of Justice would have to deal with such matters.

William Anderson and James Daley, charged with assaulting Francis Bird and stealing \$60 from him, elected to be tried by a judge without a jury. C. V. Lange appeared for them. They will appear on Tuesday next.

COLD IS GENERAL

Over Central and Eastern United States

(By Times Special Wire.)
New York, Jan. 13.—The entire central and eastern sections of the country are today in the grip of hard freezing weather, with prospects that it will continue at least 24 hours or more, and in some sections for a longer period. From the Rocky Mountains to the Atlantic coast, the temperature has dropped to general.

Even in the south reports indicate a cold wave, and it is feared that many places the orange crop will be damaged.

New York City the temperature has dropped to 10 above zero early to-day. The weather forecasters predicted still colder weather during the day. While no deaths were recorded in New York last night, much suffering was caused by the extreme cold wind, and 2,500 homeless women sought shelter last night at municipal lodging houses and organizations.

Hamilton Times Patterns

A SIMPLE, EASY-MADE GARMENT.

9572—Lady's Combination, Bra-
sieres and Petticoats in raised or
normal waistline—This model has
been developed in two, cabaret,
muslin, nainsook or silk. The skirt
is straight. The bodice is a one-
piece model, with a straight low
neckline below knee length, in plain
ed extensions. The closing of bra-
sieres and skirt is at the side, the
"folding may be cut in the side of
the bodice, with a straight low
edge. The pattern is cut in two
sizes, small, medium and large. It
requires 4 yards of 26-inch material
for a medium size.

A pattern of this illustration
mailed to any address on receipt
of 10c in silver or stamps.

To secure pattern, fill out this
blank (write plainly). Enclose
amount and mail to Pattern De-
partment, Hamilton Times,
Hamilton, Ont.

It will save several days before

MEETING OF UNEMPLOYED.

With the exception of making it public known that there are many idle men in the city, and that several appeals were given an opportunity to express their sympathy with the unemployed men and declare that they considered that the city should provide for those needing it, the meeting was without any practical result, as we believed that it would be. The speakers had any practical result, unless some of those present could get the men work or get it for them. The men do not want charity, although some of them may be forced to accept it before the winter is over, and this need be no disgrace to an honest man. But it is work they want. And right here we say that no person should be allowed to want it, or no work, surplus of no charity, work or no work, surplus of no surplus. The City Council last night granted \$5,000 to be used in providing work. That may do as a beginning, and much more should be done, unless the city employers make an effort to take on some idle men to tide things over. Better do that than dole out charity.

Mr. G. G. G. was not far wrong when he declared that the way the city had been boosted had attracted work to the city in large numbers, and that it was now up to it to see that it did not want to lose it. Mr. Eberling was justified in making the statement that immigration had been overdone, caused by untruthful representations abroad of the condition of things in Canada. Canada is not a place to entice people from their homes to come here, especially from Great Britain, where work is plentiful and business is good. The city should take care that some back from the old country take the good times over here, and it is criminal for the Government or anyone else to lure these people here in shoals as they have been doing.

It is not surprising that the city should be crowded with immigrants, the city should protect against this wholesale immigration which has been flooding the labor market, and creating conditions which are to be deplored.

The city can afford to look after all those it should look after, and this is no weather to hesitate as to the means to be employed. There is no reason to give some people employment. In a population of 100,000 there should be a few who could give a week or a day's work to anyone.

FREE WHEAT.

When Sir Wilfrid Laurier in 1911 proposed reciprocity in wheat between Canada and the United States, the whole Tory party with one voice declared that such an act would mean the end of Empire, make Canada an adjunct of the State, Sir Wilfrid was denounced as a traitor willing to hand over Canada to an alien power, and much protesting and oratory were given up to the end of the year. The British boys were called upon to vote the unwelcome thing down as they valued their British connection, and the salvation of the Empire. It was a great feat, but it fooled the electors, who, no doubt, believed that there must be something in the cry when so many people were taking it up. Reciprocity was defeated.

It is now the question of free wheat. The British boys were called upon to vote the unwelcome thing down as they valued their British connection, and the salvation of the Empire. It was a great feat, but it fooled the electors, who, no doubt, believed that there must be something in the cry when so many people were taking it up. Reciprocity was defeated.

TREASON OF THE TORIES.

The Unionists of Great Britain are playing a despicable and dangerous game in the matter of Ulster and Home Rule. By their acts and speeches they have been inflaming the North of Ireland people to open rebellion against the British Government. Some have a special interest in the matter, as they are certain to be the worst of the series involving encouragement to revolt against authority yet delivered. It was simply loaded with the most foolish and dangerous language, and the speaker was a man who had been left with respect for law, order and property state in alarmed bewilderment. His speech was a piece of propaganda to Spindellite to do their worst. Dealing with the subject the Dundee (Scotland), People's Journal, says:

Over the oath of duty to the King and his Government. For openly urging the common soldiers to refuse to fire on the workers. Spindellite has been sent to jail. They were mild compared with that which is now being committed in the name of Toryism. Officers are frankly told to maintain in the name of the Crown and the Liberal Government may be placed in Tory hands. The men who will follow Tom Mann are quite justified in coming to the conclusion that the Government is a tool of the Tory Government.

The Journal declares that the real reason the Tories have for fomenting rebellion in Ulster is to try and bring discredit on the Government. The Tories are helping the Orangemen to obtain the throne of the British Empire.

They are helping the Orangemen to obtain the throne of the British Empire. They are helping the Orangemen to obtain the throne of the British Empire. They are helping the Orangemen to obtain the throne of the British Empire.

But it is not the Tory Government that is the cause of the trouble. It is the Tory Government that is the cause of the trouble. It is the Tory Government that is the cause of the trouble.

But it is not the Tory Government that is the cause of the trouble. It is the Tory Government that is the cause of the trouble. It is the Tory Government that is the cause of the trouble.

to the Government. Telephone for the twelve months ending November 30, last, shows a net surplus for the twelve months amounting to \$30,284.64, of which \$26,604.74 goes to Depreciation Account, leaving \$3,679.90 to go into the Provincial Treasury. The statement shows the Province's total investment in the telephone system as \$10,150,000. That is to say, says the Winnipeg Free Press, for the twelve months in question there is, leaving out of account the fact that there is no provision for a sinking fund for the redemption of the bonds a showing of one-third of one per cent profit on the investment of the money of the people of Manitoba in the business, as the result of the heavy increase in rates, amounting to hundreds of thousands of dollars. This showing does not say much for public ownership.

Coldest Night in Over Twenty Years.
(Continued from Page 1.)
Hydants did not have to be overcome. Any that are frozen will thaw out of their own accord, and should a heavy snow fall today, the department would have no trouble in getting additional men to put out the fire.

Start Will Be Made at the Quarry.
At a private session of the Board of Control on today it was decided to open a quarry bureau in the city hall to take the names of men to be employed at the quarry on the mountain side or to pitch earth into the coal oil inlet. The work on the quarry will start at once. Likely about fifty men will be employed as soon as their cases can be investigated by Controller Morris and Industrial Commissioner.

FILL IN INLET LATER.
A Few Hundred Men Employed at a Time.
The use at present is to make sure that the men are not employed at the quarry. The use at present is to make sure that the men are not employed at the quarry.

Inspector Bingham has issued a warning that horses must be kept covered by blankets as soon as they are out of the stable. Many animals are left standing for a length of time with out any cover, and the result is that this cruelty must be entirely eliminated.

Several unknown men, an Englishman, looked another man on King Street, who was walking with a woman, and finally removed the woman from a nearby street. It is not known whether the man was a thief or a kidnaper.

Several children refused to let their children go to school, and the result was that the children were not sent to school. The children were taken to school by their parents.
